

Dear Lawmakers,

I am writing to you as a concerned citizen and a parent, urging you to consider the repeal of Measure 110 in Oregon. Since its implementation, this measure has had unintended consequences, drastically affecting the safety and well-being of our communities, especially our children.

In our neighborhood and nearby spaces, the presence of drug use has become a common sight in nearby places that were created for peaceful play or everyday needs (like Laurelhurst Park or the now vacant RiteAid on Cesar Chavez). This exposure poses a direct safety risk and impacts all of our mental and emotional well-being.

Moreover, Measure 110, while intended to help those struggling with addiction, seems to be failing in its mission. The lack of adequate support and resources for rehabilitation has left many of our community members in a vicious cycle of drug use, directly contradicting the measure's purpose.

Our children's safety and our community's health must be a top priority. I strongly urge you to reconsider the effects of Measure 110 and take immediate action towards its repeal. We need solutions that truly support those battling addiction while ensuring the safety and security of our neighborhoods.

Thank you for your time and attention to this critical matter. I trust in your commitment to the well-being of our community and look forward to seeing positive changes.

Sincerely,
Kelly Freeburg
