

I am unable to attend this meeting in person but welcome the opportunity to voice my opinion on I-205 tolling via this email.

I am totally against tolling of any roads in Oregon, especially I-205.

My wife and I are in our 70's, retired and living on fixed incomes. As everyone knows these days the cost of living has gone up exponentially. We would be forced to drive on sideroads through residential neighborhoods if the freeway had a toll.

Thank you.
