

To whom it may concern,
I am reaching out related to purposed tolls on 205 near West Linn Oregon.

I am opposed to this as my family & community will face major increased costs as a result. I have to take 205 to get for: doctor appointments, full grocery stores, gym, kids soccer events etc. And for work, I have to travel into Portland multiple times a week, sometimes multiple times a day.

Many elderly community members are on very limited budgets. Getting to doctors appointments they must go on 205. I personally, fear they may stop going to important doctor appointments as a result of their limited budgets.

The only route alternative is via Oregon City, which is already challenging due to traffic there in. When going this way travel times are exhausting. The little bridge there simply can't hold enough traffic efficiently.

Taxes are already very high add inflation & tolling could be the straw that breaks many west linn family budgets.

Tolling is not a community friendly initiative. Every family will be adversely affected. Our childrens & senors livelihood will be downgraded.

Is there a way to make those who live in West Linn exempt? Maybe this could be an alternative solution.

Sincerely,
Lisa Piccuta
West Linn Oregon 97068
