

Hello,

I attended the above meeting regarding Oregon's proposed Tolling. I would like to encourage the Legislature to find a/an alternative source(s) of funding that will be more equally distributed across all of Oregon's benefactor's of our transportation systems. 1<sup>st</sup>) This tolling will be a hardship to me and my extended family. 2<sup>nd</sup>) When a government agency, in this case ODOT, has been so secretive in its planning with the public, there is almost always a reason, and it is seldom in the publics best interest.

Thank you for listening.

Sincerely,  
Paul Burros
