

Oregon Capacity System

May 23, 2024

Avoidable Days

Context & Data Assumptions:

- Subject matter experts (former Discharge Delay Advisory Group) contributed to the avoidable data review, groupings and sub-groupings
- Intentional alignment of payor group definitions consistent with discharge data set
- Data set represents 32 of 61 Oregon Hospitals
- Data time period expanded from pilot set to include all contributors from November 29 through April 1, 2024
- While data is pulled hourly, 1600 is used as the hour to capture the information given it is most likely to have been updated by this time
- All incomplete data has been removed

Groupings
