

FUI: I pay for a senior HOP pass each month.

PLEASE PLEASE PLEASE make Trimet buses safer for seniors who must ride buses and who have no other means of transportation. i.e. limit the # 's of homeless people who are allowed to ride them (for free) and who bring on fully loaded (with many personal possessions) wheelchairs, grocery carts, large long handled towing wagons fully loaded with personal gear. These are inconvenient, dangerous to other riders and **they take up all the senior seating at the front of the bus.** I once had a homeless man stand with his rear end in my face as he had a long handled fully loaded towing wagon with him at the front of the bus.

Also, can the drivers kindly limit the # of dogs allowed on buses. Many times they get agitated if another dog is brought onboard, making it frightening for passengers who don't want to get bitten or who have to dodge angry and growling animals as we try to enter or exit the bus.
