There used to be a bus line that went from Newport to Portland and back. The same bus line would go from Newport to Bend and back. This bus line was discontinued due to safety reasons, but it was the only way someone could reasonably get to Newport without a car. I know have to pay hundreds of dollars to get from Portland to Newport to see my mom. Please give us a bus line that connects us to somewhere other then Tillamook and Cannon Beach, even if it just went to Lincoln City that would be better then having to rent a car and have to pay really high drop fees. Pulse, going to Newport and having to rent a car, there is only the choice of Enterprise because there are no other car rental options in Newport.

Thank you for your time.
