Submitted written testimony to the Joint Committee on Transportation for the 6/4 Roadshow Hearing:

Well, it's got to be apparent that we humans must change our course and lend our money and our will to plan communities not reliant on freeways anymore. Enough. Enough, Enough.

I entreat you to change what we humans do, the same ole same ole as if we are permanently blind and addicted to cars, asphalt, noise, destruction of quality of life in our neighborhoods. Because?

We are going to have to put it all back together; it's very late.
