

Dear Legislators,

Due to the inevitable threat of a major Cascadia Earthquake, the bridges on Columbia blvd. and Lombard st. need to be rebuilt or retrofitted (if possible) to withstand the impact. If this is not addressed, ~30,000 residents will be stranded from the rest of the city.

Please consider that PBOT is ready to apply for a grant when they have "match" funds to upgrade Columbia blvd.

We need this.

Thank you,

Hannah Croft, St. Johns resident
