**Submitted written testimony to the Joint Committee on Transportation for the 6/4 Roadshow Hearing:**

Encourage non-car alternatives for everyday trips as well as statewide vacation/work/visiting. Real incentives and costly disincentives to choosing to drive are a proven solution. Congestion pricing and tolls are a good place to start.

Safety of vulnerable road users should be a top concern, the current focus on mega projects does nothing to slow the damage done to people. Injuries and fatalities continue to climb.
