

To the Joint Committee on Transportation -

I am a resident of St. Johns and plead with you to provide this part of Portland with **safe access to emergency routes in and out of the area by seeing that the**

- **2 railroad bridges**
- **the railroad tunnel section**
- **the Columbia Blvd bridges over the cut**

**are rebuilt and made secure in the event of a damaging earthquake.**

I will do my part to contact my legislative representatives asking that PBOT, ODOT and BNSF have the funds to collaborate and have money for a feasibility study.

Please do your part to make a secure emergency route in N Portland. Thank you.

Judy Froemke
