**Submitted written testimony to the Joint Committee on Transportation for the 6/4 Roadshow Hearing:**

As a Portland resident, I want money to be spent on fast trains, maintaining the roads we drive on, animal overpasses/underpasses, and investments in seismic resilience. The research is clear: more lanes equal more pollution. I want PBOT to get their share from a VMT tax and/or road user charge, connecting revenue to local programs. Follow the science, not outdated biases. Money spent on fast trains could change the entire regional picture. Thank you!
