

JCT Tour Tillamook
Funding Suggestions

June 18, 2024

1. All federal project monies must include 10 years of dedicated maintenance \$\$\$.
2. Any tax increase of any kind must be approved by the voters.
3. Are we completely ready for the big one – the big earthquake? If not, that has to be a priority. Step one – identify all the actions needed to have Oregon ready for the big quake.
4. A full review of all ODOT expenses by an external financial management firm.
5. Reallocate TLT money so that more goes to transportation funding.
6. Increase the TLT tax.
7. RE: Vehicles miles travelled – are you charging for out of state travel? – if so, that would be wrong.
8. Local sales tax – dedicated to transportation.
9. Statewide sales tax with the complete removal of all income taxes. This generates \$\$\$ from visitors and is better for low-income retirees.
10. All state transportation projects must have ten years of DEDICATED maintenance dollars.

11. All overdue license plate renewals given 45 days to pay up. If not paid by due date, then fee is due and additional \$300 fee is charged.
12. Allow public agencies to combine and save \$\$\$\$.
Something like what Tualatin Valley Fire & Rescue has done.
