Transportation Safety and Sustainability Tour

Transportation System Challenges, Needs, and Solutions

Oregon Department of Transportation

August 28, 2024

Ontario, Oregon

Delivering a Safe, Accessible, and Reliable Transportation System

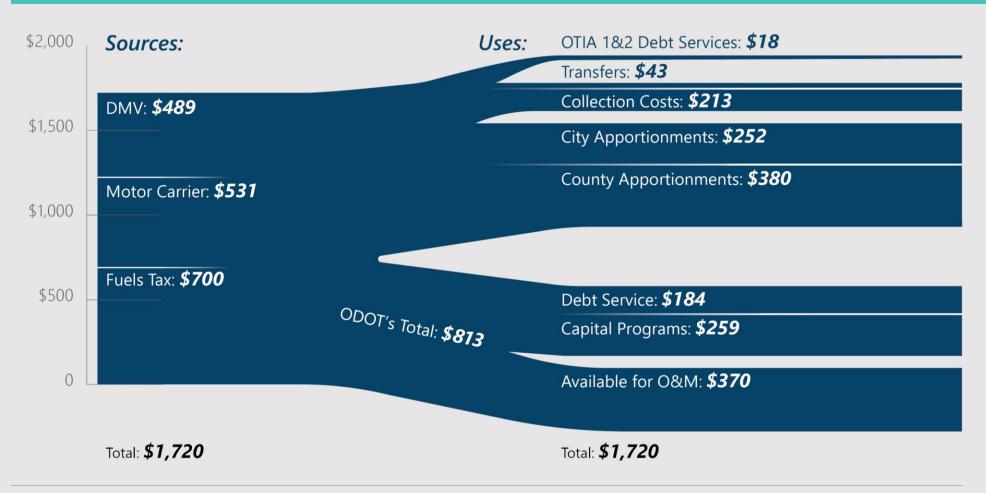

- Deliver core critical services that enhance safety, keep communities connected, and keep Oregon moving.
- Structural revenue challenges limit our ability to provide a safe, accessible, and reliable system.
- Structural revenue reform is needed
- We must invest in safety and service restoration before investing in future capital improvements and modernization.

Statewide investments will lead to service improvements for all system users.

State Highway Fund Sources and Uses

2023-2025 Annual Average in Millions*

Agency Operations By the Numbers

Maintenance and Operations includes the day-to-day essential services needed to maintain, monitor, and repair Oregon's multimodal transportation system.

- 1,100 maintenance facilities
- 1,328 full time employees

The Preservation Program includes project investments to repair and replace **bridge**, **pavement**, **culvert**, **signal** infrastructure, and seismic upgrades to ensure long term performance.

> ODOT is responsible for about 8,000 miles of road and 2,770 bridges across the state.

The Commerce and Compliance Division regulates commercial vehicles, collects tax revenue, and provides direct customer service to commercial drivers and carriers.

- 6 Ports of Entry and 88 Weigh Stations
- 2,656,808 scale crossings in 2023
- 643 safety compliance audits in 2023
- 312 full time employees

The **Driver & Motor Vehicle Services** division provides essential customer service for over 2 million Oregonians each year.

- 59 field Offices
- 853 DMV full time employees; 410 field services full time employees
- DMV has about the same number of employees as it did 20 years ago—while Oregon's population has grown by more than 20% over the same period.

Agency Operations includes the people and support functions essential to operation and administration of the agency.

- Maintains 1,179 buildings
- Supports over 350 information systems
- Supports \$1 to \$1.5 billion annual contract value

Maintenance & Operations

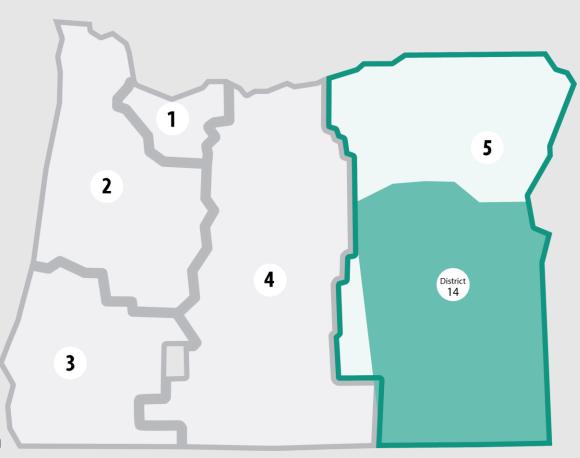

Region 5 - Eastern Oregon

Regional services

- 25 maintenance facilities (avg 47 years old)
- Over half of the 283 FTE are dedicated maintenance (174 maintenance + 26 seasonal)
- 3 specialty crews for electric, bridge, and sign
- **4,958** lane miles (26% of statewide)
- **477** bridges (17% of statewide)
- 96 snowplows (26% of statewide)

Unique needs and challenges

- Limited housing for remote maintenance crews
- Highspeed two-lane corridors in the Region; High crash severity and demand for incident response services
- Extended winter season up to 6 months long
- Challenges in hiring staff in remote locations
- I-84 and I-82 are **critical routes for freight** in the Region
- Region encompasses the greatest remote areas in Oregon

Commerce & Compliance Division

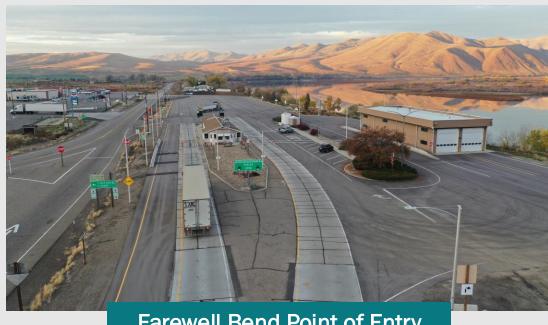

Eastern Oregon, Snake River Region

Regional Services

- 10 FTE Motor Carrier Enforcement Officers
- 2 FTE Safety Investigators
- 1 Port of Entry and 7 small scale facilities in Eastern Oregon area
- Weighed ~270,000 trucks in 2023 (9% of state's weighed trucks)
- 51% of trucks received a Green Light to bypass scales legally (2023)

Regional CCD needs and challenges

- Staffing shortages reduce weighed vehicles, Safety Audits and inspections conducted, and impact daily operations
- Facility upgrades, scale deck upgrades, and ramp capacity is needed for safe operations and infrastructure technology to meet federal requirements
- Increase in safety concerns and threats towards CCD staff
- Mainline locations experience a large number illegal

Farewell Bend Point of Entry
Station

Service	Estimated Annual Need	Annual Funding Gap
Service Functions		
Customer Service & Regulation (DMV)	\$170 million	\$50 million
Customer Service & Regulation (CCD)	\$60 million	\$25 million
Agency Operations	\$450 million	\$170 million
Maintenance and Operations	\$450 million	\$205 million
Safety System Investments		
Preservation	\$1,250 million	\$980 million
Programmatic and Systemic Safety Investments	\$200 million	\$145 million
Safe Routes to School Infrastructure	\$50 million	\$35 million

Great Streets Program	\$65 million	\$45 million
On Road Freight Investments	\$12 million	\$8 million
TOTAL	\$2,842,000,000	\$1,778,000,000

Fulfilling HB 2017 Commitments

I-5 Rose Quarter Improvement Project

The project addresses safety and congestion where three major interstates converge and support reconnecting the Albina neighborhood through construction of the state's first highway cover.

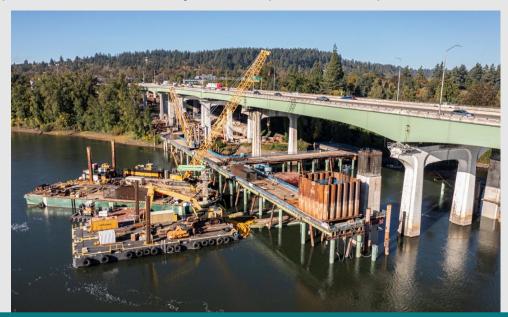

TOTAL

I-205 Improvements Project

\$800 million

The project upgrades nine bridges to withstand a major earthquake, widens I-205 for a future third travel lane, makes safety improvements, and nearby bike and pedestrian improvements.

\$2,150 - 2,650 million

Fulfilling HB 2017 Commitments	Estimated Total Cost*	Available Resources*	Total Funding Gap*
I-5 Rose Quarter Improvement Project	\$1,500 - \$1,900 million	\$600 million (does not include \$250M HB 2017 funds for INFRA grant match)	\$900 million - \$1,300 million
I-205 Improvements Project: Phase I (Abernethy Bridge)	\$750 million	\$200 million	\$550 million
I-205 Improvements: Phase II (Stafford Rd. to OR 213)	\$700 - 800 million	\$0	\$700 - 800 million

\$2,950 - 3,450 million

A More Diversified Revenue Portfolio
