ASDP Data Application Roll Out

PHASE ONE

- ODE's ASDP Data Application launched on August 2024.
- The phase one launch updates the prior data collection in the following key ways:
 - Input new programs as needed
 - Update programs with new information changes such as instructional minutes, IEP changes and updated consent forms
 - Monthly verification of data regardless of program count

PHASE TWO

- Phase two implementation is anticipated to be completed in Fall 2025 and will result in the following additional capacity within the application:
 - District <-> ODE communication support
 - Monitoring of verification by districts
 - Robust reporting system to identify outliers with drill down capacity into individual programs
 - Monitor changes to individual programs and ability to set "watch" flags on particular programs
 - Reports to provide information on inquiries about the ASDP
