

Submitted testimony from Jessi Presley-Grusin, Hosford-abernethy below the line:

---

Please invest in public transit, road maintenance, and street safety instead of bloated costly freeway expansions. We don't need more lanes, we need investments in our existing infrastructure and improvements for pedestrian, bicyclist, and public transportation! ODOT is also facing enormous layoffs that could be prevented with some of these funds. Please reject the plan for more lanes on the Rosequarter freeway in favor of investments that actually benefit our community!
