

Submitted testimony from Teresa J Frakes, Portland below the line:

---

Freeways are counterproductive. They make transportation problems worse, not better. There are so many things that are needed it is foolhardy to spend money on things that are not needed. We need FREE and FREQUENT public transportation. Pedestrians and bicyclists need to be accommodated. Roads need to be maintained. Traffic signals need to be updated. PLEASE ACT RESPONSIBLY and do NOT support freeway funding.
