

Thank you for this opportunity to express my opinions. I feel that Trimet is wasting a large amount of money on their racist, biased, and abusive fare inspectors. I know from speaking to people on the outskirts of society, and this in the LGBTQ community, that they harass the least among us. I propose Oregon follow other states and offer free fare to everyone, and get rid of the fare inspectors. Along with this, increase security and have well trained people ( such as the SERT team) ride buses and the max to help mitigate issues with drug use and mentally ill.

Thank you, Jill
