

I would first like to state that the meetings need to be held in more accessible locations for people like myself with disabilities. The bus ride from my home is an hour and a half each way with a minimum of a 10-30 minute walk. That being said, my suggestion as I keep asking, pleading, and begging for of which was promised is security on the 72. It has gotten bad over the last few years and I was told by the chief of security that I would notice a presence of which I have not. Also, sensitivity training for drivers and supervisors would be appreciated. I have been yelled at, berated and belittled by some of them.

The "free rides", oversized wagons and unfolded baby carriages, and the 50 gallon bags of cans need to go. Granted, I ride public transpo almost daily and am aware of the stress of the job and yes, I too bring a bag of bottledrop, but am mindful of the space. You want to increase funding? Figure it out to make it safer for all to ride.
