Rep. Grayber's Question (paraphrased): What is the percentage of rangeland acres versus forestland acres burned this fire season?

Answer:

The agency's analysis of acres burned in the 2024 fire season, categorized by main fuel type, is available for large fires based on the latest fire statistics. Below is the breakdown for large fires in Oregon. (≥ 100 ac Timber, ≥ 300 ac range).

Oregon Large Fires by Main Fuel Type		
<i>Fuel Type</i>	<i>Acres</i>	<i>Percent</i>
Grass/Brush	1,169,190	62%
Timber	725,126	38%
Total	1,894,316	100%
