

## **SUBCOMMITTEE RECOMMENDATION**

### **Item 62: Department of State Lands Wasson Creek Valley Access**

---

To:	Emergency Board
From:	General Government Subcommittee
Carrier:	Senator Frederick

---

The General Government Subcommittee recommends that the Emergency Board increase Federal Funds expenditure limitation for the Department of State Lands by \$150,000 for restoration of public access to Wasson Creek.

The Department of State Lands was awarded a \$400,000 grant from the National Oceanic Atmospheric Administration over a period of five years with no state match required. This funding will be used to replace public access to the Wasson Creek Valley that was previously removed as part of the Wasson Creek Watershed Restoration project. The Department will need limitation in the 2025-27 biennium to expend the remainder of the grant and complete construction.

The General Government Subcommittee recommends approval.
