Regarding Department of Motor Vehicles (DMV) Voter Registration

Chair Ben Bowman, Vice-Chairs Jeff Helfrich and Jason Kropf, and Members of the Committee:

We acknowledge the error that was made by Oregon Department of Motor Vehicles. The County Clerks continue to answer questions and inform the public as best as we are able. We're very grateful that this error was brought forward before the majority of ballots were mailed for the November General Election. We and our vendors (partners) have worked together to ensure ballots are not issued to any potential non-US citizen in the upcoming election.

OACC continually works with the Oregon Secretary of State to ensure secure and transparent elections. We have and will continue to diligently follow any instructions and guidance received by the Oregon Secretary of State.

We continue to support Oregon Motor Voter registration and have confidence in the Vote by Mail process that Oregon residents adopted.

Oregon Clerks work hard to count every eligible ballot cast in each election and will continue to do so.
