WORKGROUP SHARED PRINCIPLES

- Long-term and durable funding for wildfire response and mitigation should be a priority investment for the state.
- Funding solutions should ensure financial solvency of agencies' wildfire programs.
- Mitigation and response are interdependent functions of the cohesive wildfire strategy, and both need to be adequately funded.
- Funding solutions should: align with response and mitigation costs and reflect shared responsibility and benefits among all Oregonians and visitors to the state.
- Wildfire response and mitigation strategies should consider equitable, affordable and sustainable contributions from payees into the system, including in-kind contributions.
- Funding strategies should aim to maintain high standards of service (meeting missions for protecting life, property and natural resources).
