SUBSTANCE USE DISORDER

2023 BROUGHT ATTENTION TO SUD

The Oregonian

Drug use soars among inmates in Oregon's prisons; officials struggle to stop smuggling, offer treatment

Oregon **Capital Chronicle**

Though many jail inmates have addiction problems, facilities lack treatment services

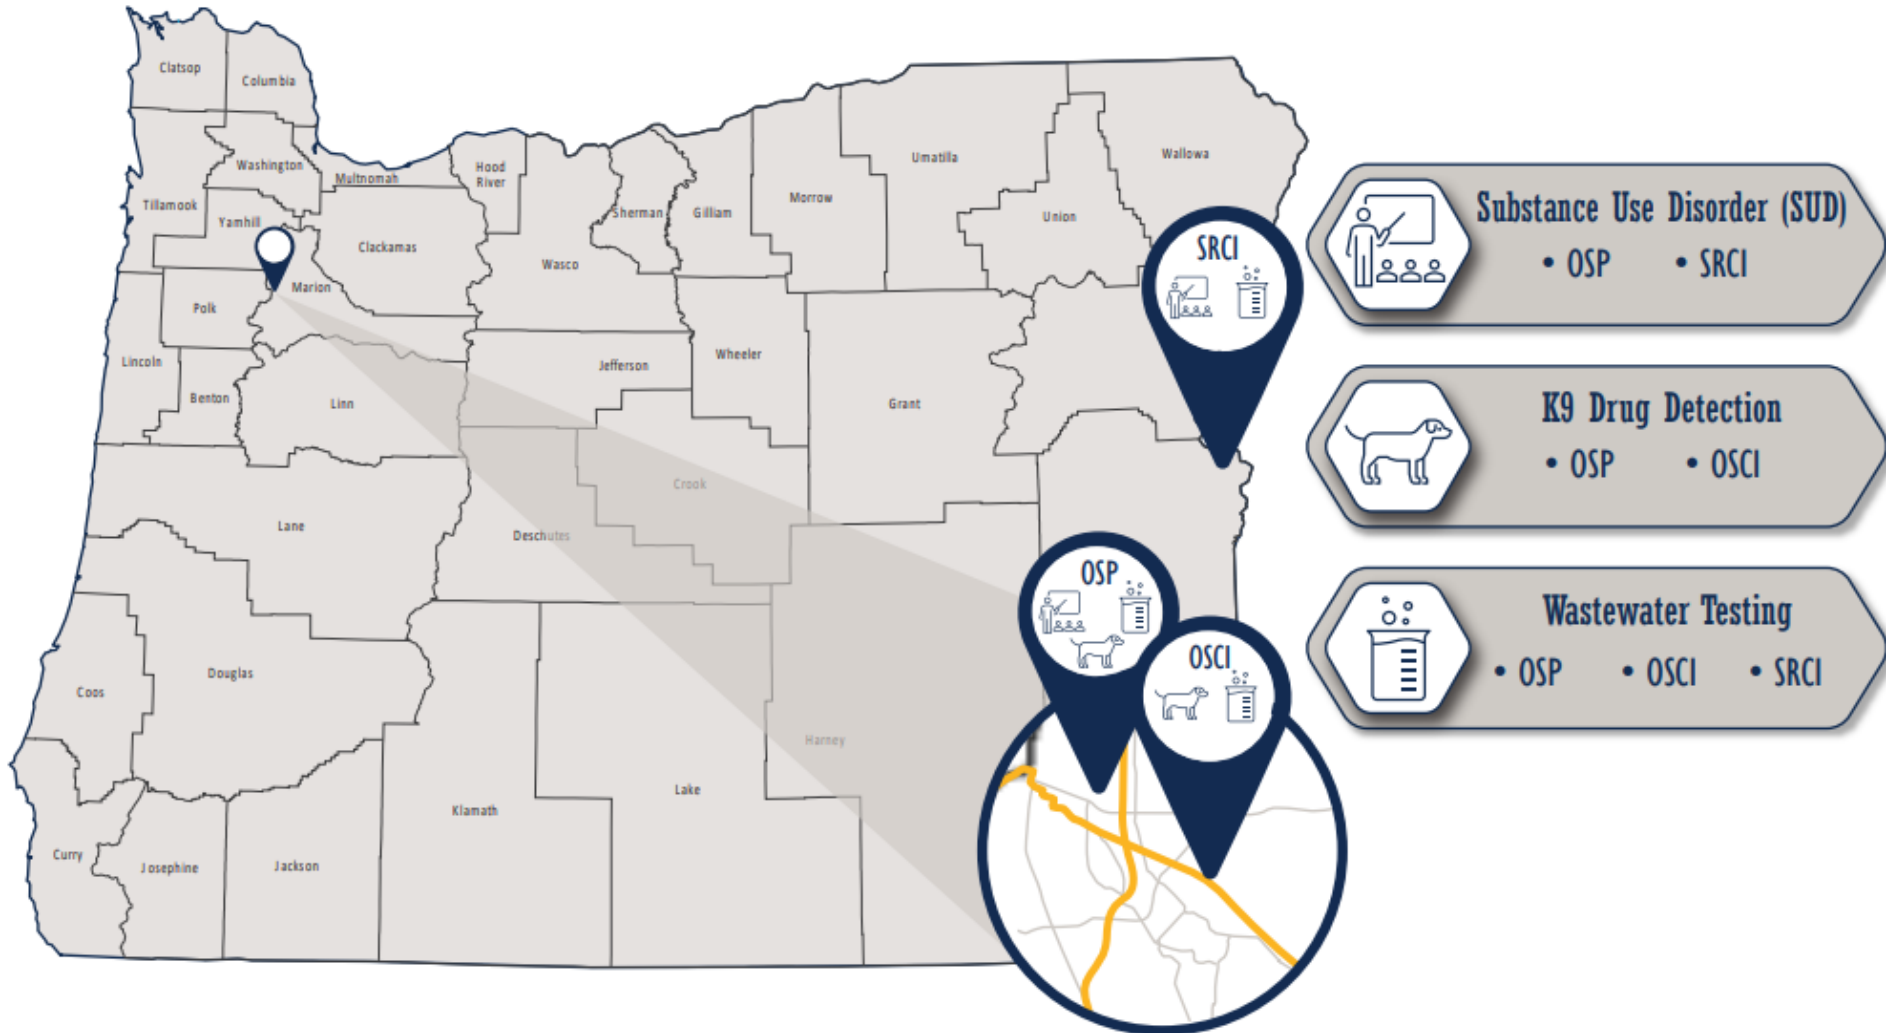

The Bulletin

Jails across Oregon struggle to treat substance use disorders amid funding challenges and medical staff shortages.

FACTS DROVE W&M ACTION IN 2023

- About 65% of AICs are identified with a need for SUD treatment during intake evaluations (US average is 17%)
- Counseling and MAT offerings were minimal within DOC.
- Consequences of inaction were significant:
 - AIC overdoses and hospitalization.
 - Correctional Officer injuries.
 - Recidivism rates among those with untreated SUD.

INTERDICTION & SUD PILOT MAP

SUBSTANCE USE DISORDER

SUD TREATMENT UPDATES

Successes:

- Additional treatment counselors, program managers, and support staff have been onboarded at OSP and SRCl.
- More Peer Recovery Mentors have been certified.
- SUD counseling services are being provided at OSP.
- MAT is expanding in all pilot locations.

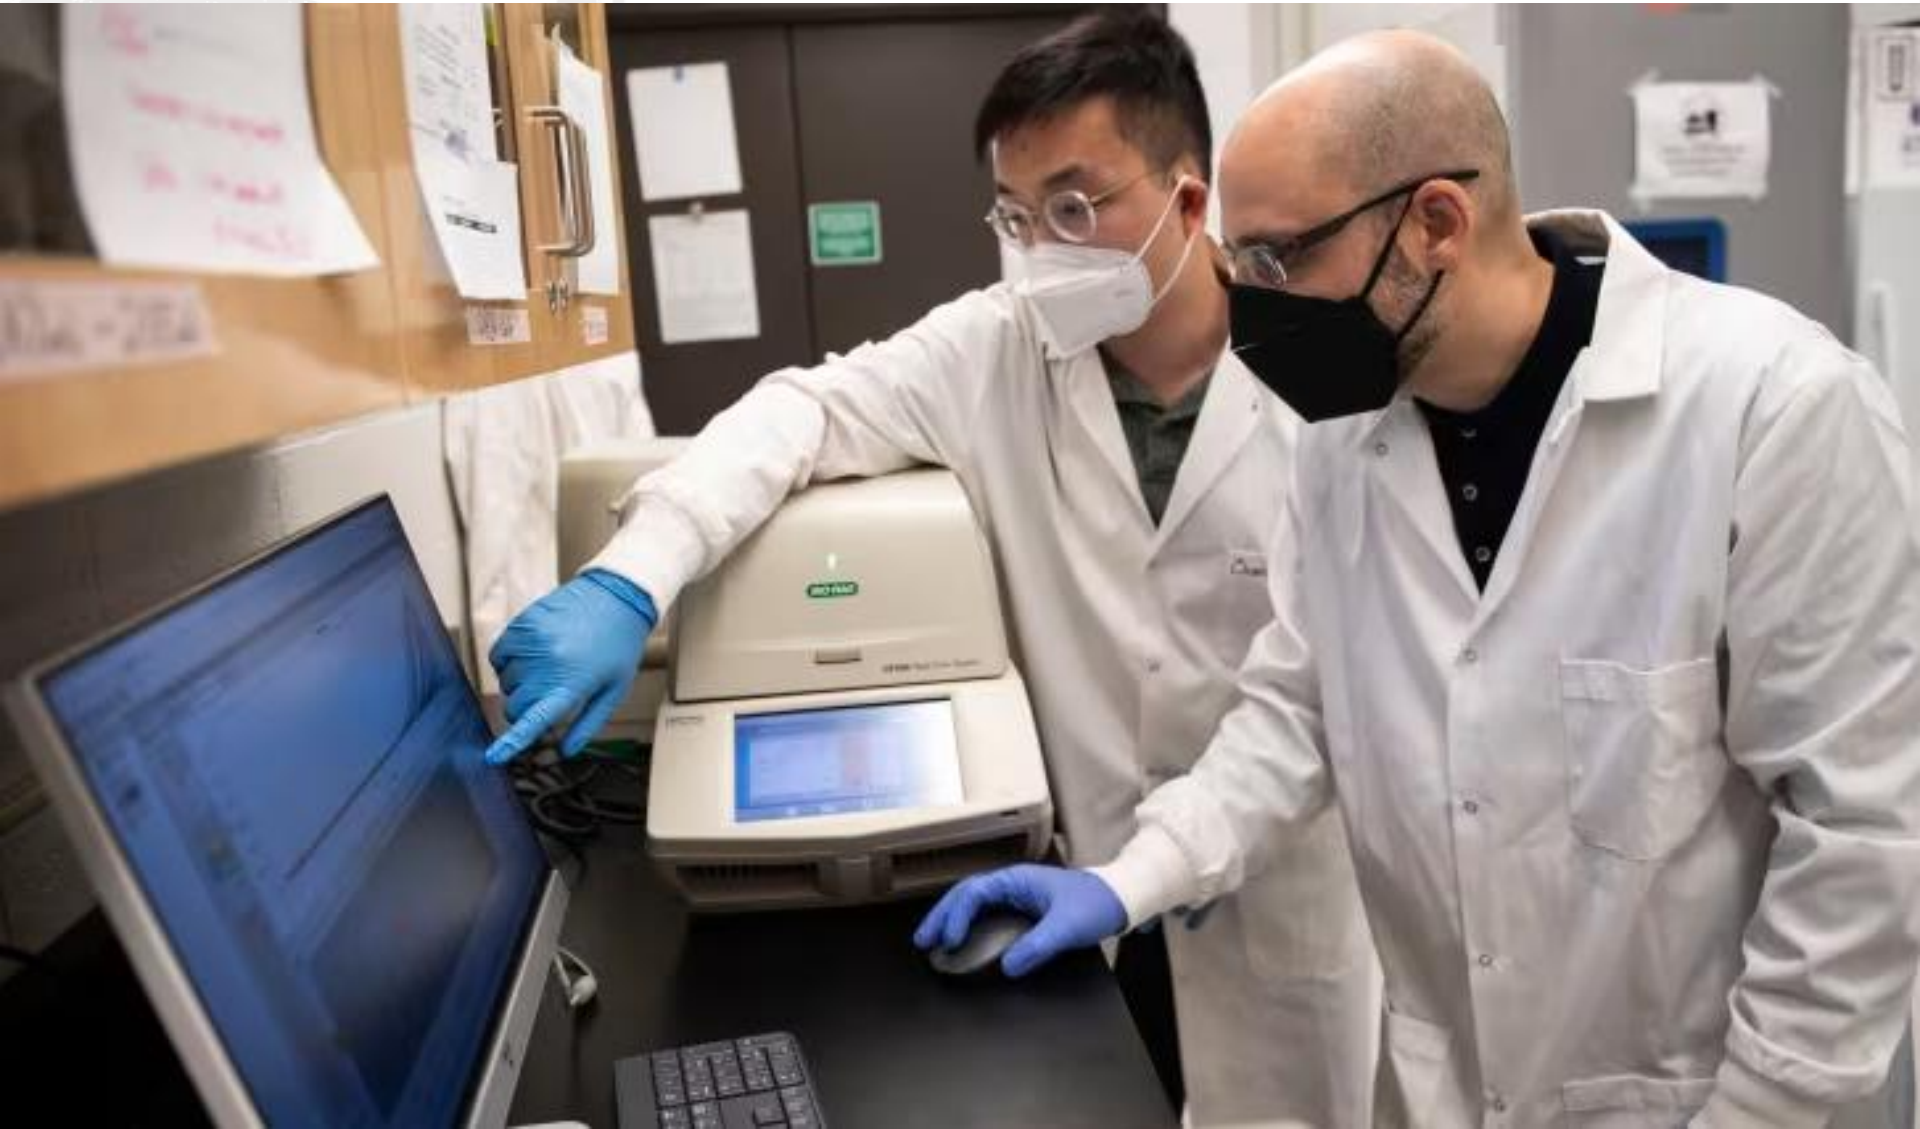

Challenges:

- Community shortage of SUD counselors.
- Recruiting treatment counselors to Ontario.
- Space for staff and counseling activities.

Strategies:

- Expanding recruiting to surrounding states.
- Launching paid internship opportunities at SRCl.
- Remodeling and reorganizing space with facilities staff.

WASTEWATER TESTING

WASTEWATER TESTING UPDATES

Successes:

- Expanded testing panel to include both parent drugs and metabolites.
- Improved detection for lower quantities of drugs.
- Testing to identify optimal days for sample collection.

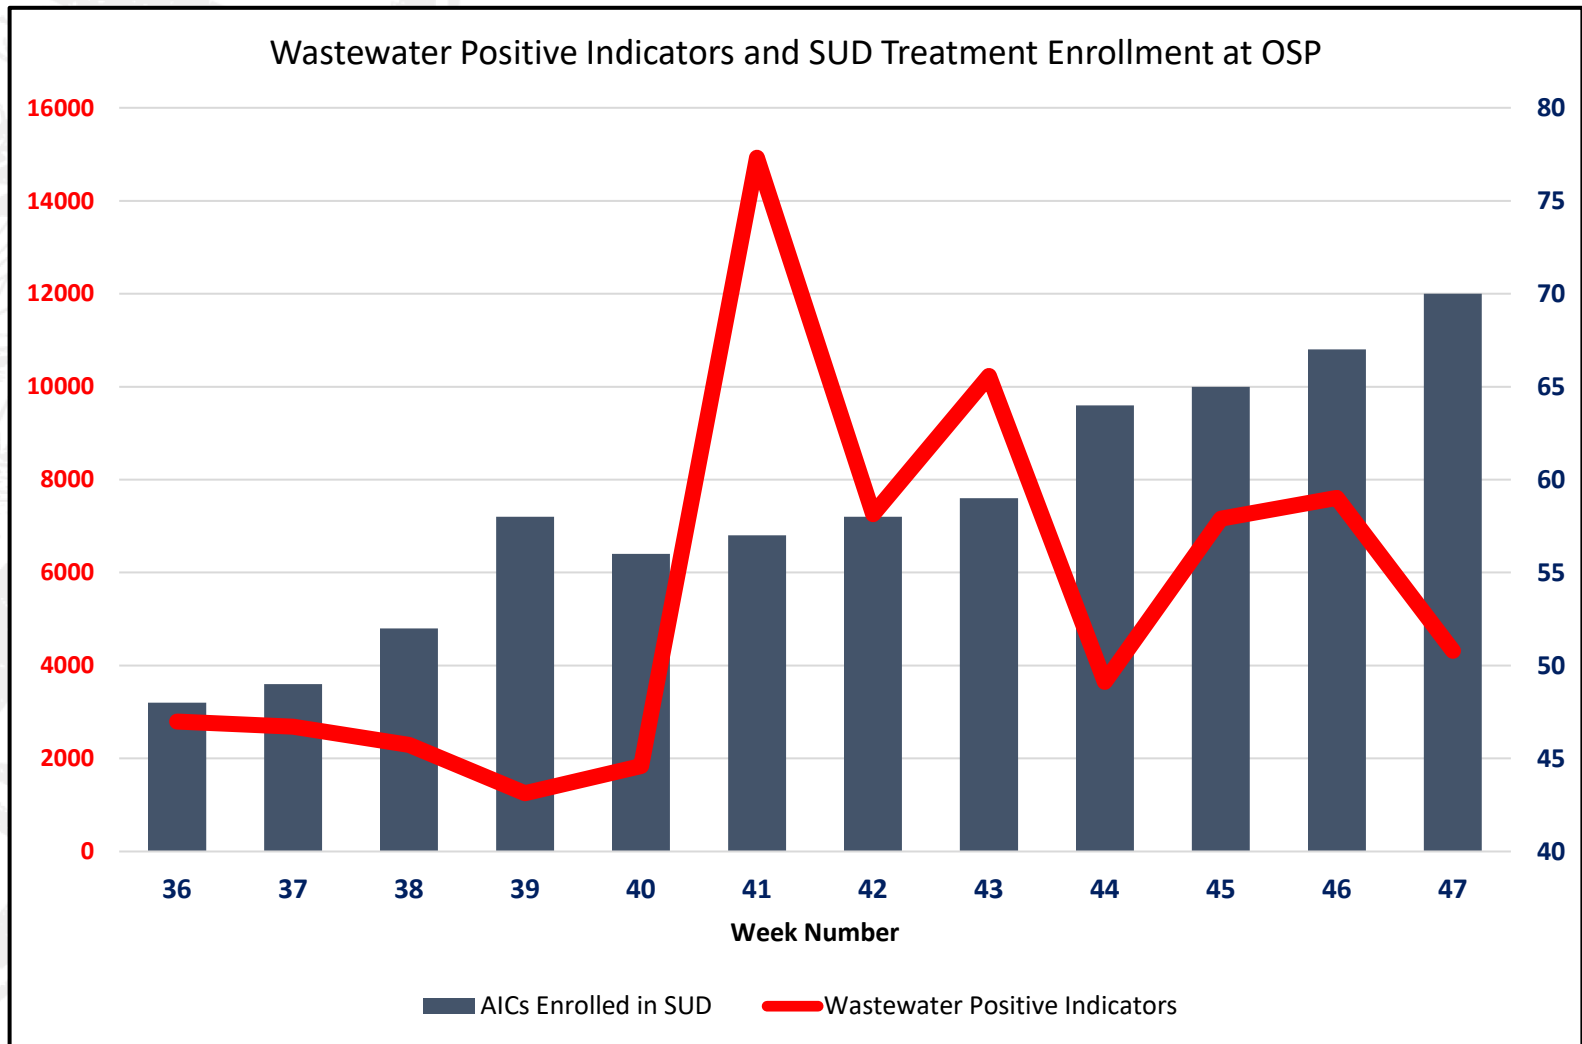

Challenges:

- Testing frequency and drug 'half-life'.
- Captures all AIC, visitor, and staff drug use.

Strategies:

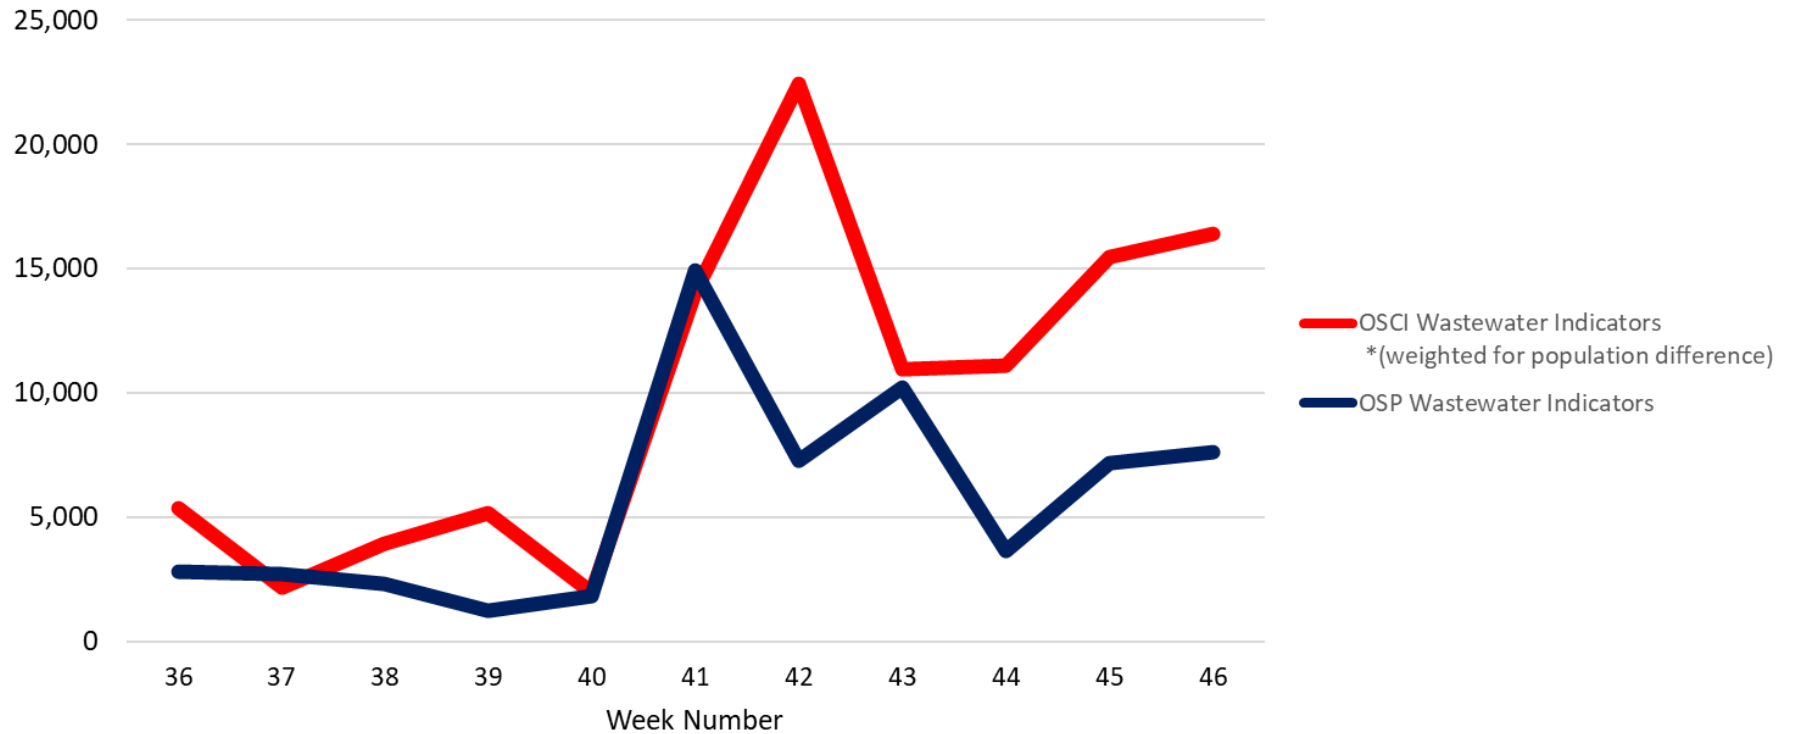

- Continue refining our testing methodology.
- Correlate findings with random UA results and
