Rap Back Presentation to the

Senate Interim Committee on Human Services

ODHS | OHA Shared Services

Jeff Akin, Interim Deputy Chief Operations Officer

December 10, 2024

Rap Back: What It Is

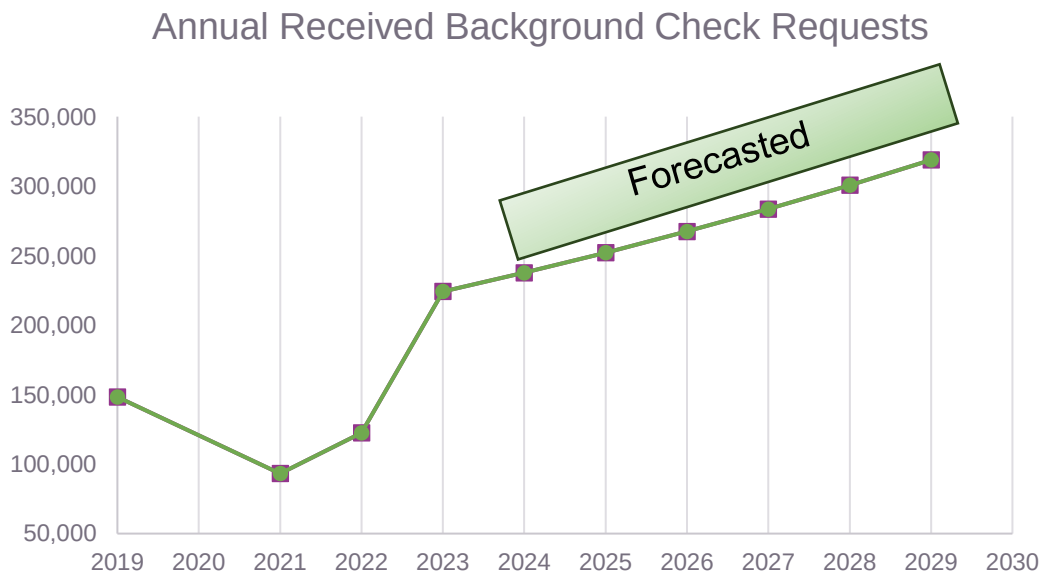
Rap Back is service managed by the FBI that continuously monitors enrolled individuals' fingerprints for future criminal activity in the U.S.

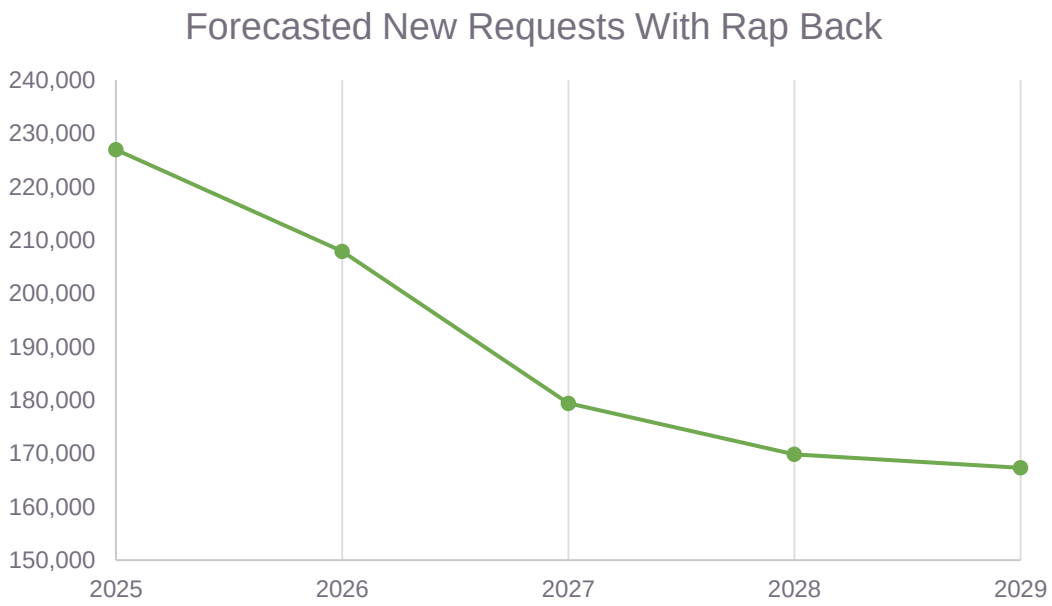
Benefits:

- Improved Safety: Near real-time alerts if an enrolled individual is arrested.

- Reduced Burden: Eliminates the need for repeated background checks when reapplying for employment, licenses, or certifications.

Impact to Background Check Volumes





Implementation Planning

- **Implementation Date:** Oregon State Police ready by January 1, 2025.
- **Efficiency:** Standardized recheck cycle ensures smooth enrollment without disrupting current processes (ODHS|OHA).
- **Enrollment**: Requires fingerprint-based background checks (currently 33%, will increase to 100% with Rap Back).
- **Fiscal Impact:** Subscription fees and increased checks will raise costs (assessment ongoing).
