

serán

# Company Overview

# Serán is Located Bend, Oregon USA

## *A Pharma Services Hub*

With a population of over 100,000 and a growth rate of nearly 2.7% annually, Bend is one of the fastest growing cities in the West

Employment base consists of excellent range of trades and pharma services talent

Excellent outdoor activities and a growing industrial and healthcare ecosystem combine to make the city a strong draw for capital investment and talent

**Founded | 2016**

In 2016, Serán Bioscience was founded to advance drug development with a comprehensive CDMO solution.

In 2017, we produced our first cGMP supplies.

**Present | 2024**

Today, Serán has ~200 employees pioneering innovation for the biopharmaceutical industry with particle engineering expertise.

**Future | 2025 and Beyond**

Serán will expand our facilities to further our service offering.  
Adding new solutions, including commercial cGMP manufacturing and proprietary aseptic spray drying.
