#### **EFFECT OF AMENDMENT:**

No amendment.

#### **BACKGROUND:**

Adult foster homes provide residential care services such as assistance with bathing, dressing, grooming, and eating to small groups of adults in a homelike environment. Operators of adult foster homes are licensed by the Oregon Department of Human Services (ODHS) and may receive reimbursement payments from the department for residents who are enrolled in Medicaid. According to the department, as of July 2022, the base rate for adult foster homes is \$1,932 with step-based increases according to the number of add-on services. In addition, there is an hourly rate for exceptional services that are not covered by the base rate or add-on services, which is \$17.77 per hour.

House Bill 2495 directs ODHS to restructure its payment rate methodology for reimbursing adult foster care providers that would result in increased base rates and the reduction of exceptional payments by January 1, 2024. The measure also requires the department to immediately increase its base rates and add-on payment amounts by 50 percent upon the measure's passage, until the restructured rate methodology takes effect, and to report to legislative committees by February 1, 2024. These provisions sunset on January 2, 2025.
