#### **BACKGROUND:**

The State of Oregon's Health Licensing Office is a central licensing and regulatory office. It works with 17 boards, councils and programs that oversee health-related professions, including the Board of Cosmetology. The Board of Cosmetology regulates the professions of barber, esthetician, hair design, nail technologist, and natural hair care.

The Higher Education Coordinating Commission (HECC) is the state regulator for private career schools. Career schools must receive approval from HECC in order to legally operate and offer valid licenses or diplomas. ORS Chapter 345 provides HECC the authority to regulate private career schools, set licensing standards, and investigate complaints against a career school. OAR Chapter 715 contains rules adopted by HECC to regulate license applications, fees, programs, personnel, etc. for all private career schools, regardless of field of practice.

SB 217 transfers authority for cosmetology curriculum, professional licensing, and facility inspections from HECC to the Board of Cosmetology and Health Licensing Office.
