

I've loved living in Helvetia for the past 33 years.

It makes me sick to see Washington county destroyed by urban sprawl.

I plan on moving this year before it gets worse.

I lived in Denver for 18 years after being discharged from the Army.

I watched the Urban sprawl destroy Denver and moved to Oregon.

Why bring all the development to Washington county? I keep hearing "it creates jobs".

Wait!! we were at full employment 33 years ago. Who's getting rich?

Please stop this madness before it's too late.

Sincerely,

Bob Elliott
