

**Widespread wellbeing won't be delivered by turning MORE**  
irreplaceable farm soil and peaceful living  
into grotesque wastelands of  
high tech nightmare complexes  
that cannot and will never love and care for  
this rare and fertile micro region.

Oregon is my birthplace, the Tualatin Valley my native homeland.  
Cooper Mt to Forest Park, this once lush corridor to the Pacific  
Ocean  
historic farmhouses, scenic barns, horse pastures and Douglas Fir  
forests.  
Crimson clover fields along bucolic rural roads....  
A country life of destroyed country.

The soulless over development of Washington County  
leaves a legacy of long term destruction, an aggressive facade  
of progress enabling wider and wider degradation.  
Healthy habitat is the most valuable "product" on earth.  
Those who do not love and preserve the land must not be  
permitted to disrupt it for all.

Allove DeVito  
Earth Keeper
