Snapshot 12/5/2022

"To **INSPIRE STUDENTS** Towards Careers in Cybersecurity"

- One-week educational camp for 9th to 12th grade students (novices)
- Dates: July 24-28, 2023
- Five classes at three locations simultaneously
 - Oregon State University, Corvallis OR (Co-Ed)
 - Mount Hood Community College, Gresham OR (2x Camps)
 - Co-Ed and Girls-Only
 - Portland Community College, Portland OR (2x Camps at Sylvania Campus)
 - Co-Ed and Girls-Only
- \$250 student fee at PCC and MHCC. \$300 at OSU. Scholarships available based on financial need. (up to 25% of students)
- Student application deadline, May 1st, 2023. Accepted on first come first serve basis
- Students apply here: www.nwcyber.camp
- Financial management by EnergySec (<u>www.energysec.org</u>). An Oregon 501c(3) non-profit, along with an extended management team

Includes Extensive Industry Engagement

- Includes ADDITIONAL FOCUS on introductions to cybersecurity careers
 - Includes industry expert instructors and guest speakers from major cybersecurity companies and industry experts
- Includes EVENING NETWORKING BANQUET on Thursday July 27th, with students, parents, educators, industry experts and company sponsors
 - Location: TBD
 - In partnership with the Technology Association of Oregon
 - Will include exhibits/tables from Oregon Cybersecurity companies providing students with additional opportunities to discuss technologies and careers

Girls Only Sessions

WHY?

- Girls make up a fraction of the engineering workforce
- Girls are much more likely to attend, participate and collaborate in a girls only environment
- 2017's program proved that point. 2016 girls' participation on co-ed camps was zero. 2017 girls-only camp sold out.

WHAT?

- A full week camp at (MHCC and PCC) only admitting girl students.
- Women guest speakers from industry
- Women instructors.

But For Funding, NW Cyber Camp Can't Meet Demand: HB 2049 Can Fix This.

- Before COVID, we identified interest in up to 10 locations, including Bend, Pendleton, Rogue Valley, Southern Oregon, Klamath Falls, and West Side Portland. (In addition to Gresham, Corvallis, Wilsonville, Downtown Portland)
- We are now rebuilding post-COVID, though financial constraints have limited to camp to 3 locations.
- Recruiting instructors, guest speakers and especially students requires sustained effort, awareness building, and relationship building with high school teachers, associations and large employers.
- Permanent project management and funds for operations, will put NW Cyber Camp on stable footing, and enable growth to a statewide program.
