

**HB 3160 STAFF MEASURE SUMMARY**

**House Committee On Climate, Energy, and Environment**

---

**Prepared By:** Erin Pischke, LPRO Analyst

**Meeting Dates:** 2/13

---

**WHAT THE MEASURE DOES:**

*Suspension Period – Proposed Utility Rate*

Modifies period of suspension of proposed utility rate or schedule of rates pending investigation and determination from initial six-month period plus additional three-month period to single nine-month period. Extends period during which Public Utility Commission (PUC) must issue order on application to acquire public utility from within 19 business days of receiving application to 11 months. Permits PUC to extend period to issue order for up to four months for cause.

*Notice of Application*

Requires water utility that applies for order designating area as exclusive service territory to include in the application a copy of notice of filing and to give notice within 30 days of filing application by electronic mail to all customers of record of water utility in area described in application and by press release to news media local to area described in application. Requires notice to describe area of proposed exclusive service territory and general rate impact to existing customers. Removes requirement that notice be published in local newspaper or newspapers of general circulation.

*Notice of Contract*

Requires person providing utility service who contracts with another person providing similar utility service for purpose of allocating territories and customers to give notice of contract filed with PUC by electronic mail to all customers of record affected by contract and by press release to news media local to area affected by contract. Requires notice to describe area subject to contract and general rate impact to existing customers. Removes requirement that notice be published in local newspaper or newspapers of general circulation.

*Notice of Adjacent Area Service*

Requires person providing utility service in territory that applies for order allocating such territory to person to include in application copy of notice of filing and to give notice within 30 days of filing application by electronic mail to all customers of record in area described in application and by press release to news media local to area described in application. Requires notice to describe area and general rate impact to existing customers. Removes requirement that notice be published in local newspaper or newspapers of general circulation.

- *REVENUE: May have revenue impact, but no statement yet issued*
- *FISCAL: May have fiscal impact, but no statement yet issued*

**ISSUES DISCUSSED:**

**EFFECT OF AMENDMENT:**

No amendment.

**BACKGROUND:**

The Public Utility Commission (PUC) is Oregon’s public body responsible for regulating rates for public utilities, which include electric, natural gas, telephone, and some water companies. ORS 757.215 authorizes the PUC to suspend utility rates or new rates if rates are under investigation for an initial six-month period plus additional three-month period.

## HB 3160 STAFF MEASURE SUMMARY

In the past, the PUC would publish public notice of filings in local newspaper or other commonly circulated newspapers. The increased accessibility of the internet and electronic mail has enabled the PUC to issue notice of filings using that technology.

House Bill 3160 would modify the period of suspension of a proposed utility rate or schedule of rates pending an investigation and determination from the initial six-month period plus an additional three-month period to single nine-month period. The measure would also modify notice requirements.
