TSPC Budget Environment

Major Changes in the Last 6 Years: Licensure

License Redesign

• Through a collaborative process of stakeholders, Commissioners and staff, Teacher License (2016), Administrator License (2018), and Personal Service License standards and processes have been completely overhauled and modernized.

COVID-19 Adjustments

- Changes in school district assignments implemented under Temporary OAR.
- Implementation of Work From Home measures.
- Call Center hiatus.
- Temporary Emergency Substitute license to address teacher shortages.

Major Projects

- Reducing barriers to entry to the profession through Diverse License Fee Reimbursements.
- Early Intervention/Early Childhood Education licensing standards.
- Ongoing development of eLicensing application and its replacement.

Major Changes in the Last 6 Years: **Professional Practices**

Investigations

- Turnover in 2019: lost a senior investigator and filled 3 new positions
- 2019 Senate Bill 155: Authority to add 4 investigators, paid for by 10% increase in license fees on top of 20% increase approved in LAB.
- SB 155 added expanded Professional Practice scope and moved those cases to highest priority.

Complaints

- New complaints received by TSPC to be investigated has remained consistently high.
- In 2018, received 264 new complaints for investigation (highest one year total since 2012).
- In 2019, the agency received 241 new cases.
- In 2022, due to changes in statute, referrals from DHS have become a major source of complaints.

Major Changes in the Last 6 Years:

JE OF OREGON

Program Approval

Teacher Performance Assessment

• TSPC fully implemented the edTPA as a teacher performance assessment by Fall 2018 and collaborated in the development of local assessment instruments in 2021-22.

Clinical Practice

 TSPC implemented new standards for supervision of clinical practices by a qualified cooperating teacher.

Required Program Curriculum

 Since 2017, teacher education programs must provide instruction on dyslexia and reading difficulties.

National Accreditation

- All EPPs will be nationally accredited by Spring 2023.
- In 2019, AAQEP approved for EPPs as alternative to CAEP, adding a considerable amount of additional work in contracting, standards review, outreach, et cetera.

Major Changes in the Last 6 Years: **Program Approval** - continued

Increasing Diversity and Lowering Barriers in the Educator Workforce

- In 2020, TSPC instituted the Diversity License Expense Reimbursement, the Oregon Administrator Scholarship and the Holistic Assessment/Multiple Measures programs. These were made permanent in 2021.
- In 2021-22, TSPC was one of a few state agencies in the country to develop the Interstate Teacher Mobility Compact to further reduce the barriers to licensure of out-of-state educators.
- In 2022, TSPC is one of only 8 partnerships in the country to be part of a Wallace Foundation program to support the development of school leaders.

Major Changes in the Last 6 Years: **Revenue & Fees**

Revenue

- TSPC's main source of revenue is licensing fees.
- In 2021, the legislature granted TSPC authority to collect up to \$15 Portal fees (previously \$5) to develop and maintain the Educator Database System.
- Student Success Act funds were granted by the 2019 and 2021 legislatures to fund diversity projects.
- General Funds were granted by the 2022 legislature to permanently fund two nontraditional pathway positions lowering barriers to the education workforce.

Fee Increase

- HB 2411 (2015) increased basic license fees from \$100 to \$140, set higher cap.
- 2019 LAB and SB 155 allowed for total of 30% fee increase.

COVID: Lessons We Can't Afford to Forget

Preparation

- Instructional methods must include flexible learning environments
- Teacher candidate life circumstances will change during preparation
- Educators not prepared for dealing with variety and intensity of social emotional needs
- Learning loss
- Nontraditional pathways
- Multiple means to evaluate curricular and clinical competency
- Need to reconsider use of student teachers in substitute positions

Licensure

- Shortages varied geographically and by subject area
- Educator shortage has a cascading effect on substitutes, instructional assistants, student teachers
- Emergency substitute licenses helped but need continues
- Pandemic exacerbated already challenged supply of personnel service licenses
- Most complaints from applicants questioned fees during a time of shortage
- No significant complaints about suspension of PD requirements

Professional Practices

- No significant increase in complaints due to emergency license
- Difficult to determine district adherence to staffing rules and supervision requirements
- Need more outreach to districts regarding ethical practices, particularly related to online interactions and boundary considerations

Cost-Containment and Program Improvement

Cost-Containment Barriers

• Agency service charges, particularly AG and DAS IT fees, have increased dramatically as the bulk of Services and Supplies cost and can't be avoided.

Online Application System

- Begun three biennia ago.
- First phase completed in 2016. Completion of second phase in Spring 2019.
- Reduced the need for human mail opening, human check receipting, and human data entry and scanning of all
 documents into the system, but multiple issues need to be addressed to provide essential functionality and stabilize
 the system.

Staff Vacancies

- It has been very difficult filling vacancies during the pandemic, usually needing two or three rounds of openings.
- Staff vacancies, particularly in customer service, have greatly impaired the ability to meet production goals.

Staff Operations

- Pandemic disruptions did not decrease production, even with near-total Work From Home.
- District Liaison (POP 102) should better serve school districts while freeing evaluators to process application and reduce delays.
