#### **ISSUES DISCUSSED:**

##### **EFFECT OF AMENDMENT:**

-1 Clarifies OHCS shall adopt in rule a methodology for allocation affordable housing portion of project's shared costs. Replaces "median family income" with "area median income" and amends relevant statutory sections to align with provisions of Act.

##### **BACKGROUND:**

ORS 456.620 describes Oregon Housing and Community Services' (OHCS) responsibilities related to planning, development, and management of affordable housing projects. The agency establishes household income limits for such projects, subject to approval by the Oregon Housing Stability Council. Current law allows a maximum of one-third of the units financed by OHCS in an affordable rental housing project to be available to households with an income greater than 120 percent of median family income.

House Bill 2761 allows OHCS to finance only the portion of mixed-use or mixed-income housing developments affordable to households earning at or below 120 percent of median family income, subject to limits established by the Oregon Housing Stability Council.
