Child Care Availability: Six Year Trends

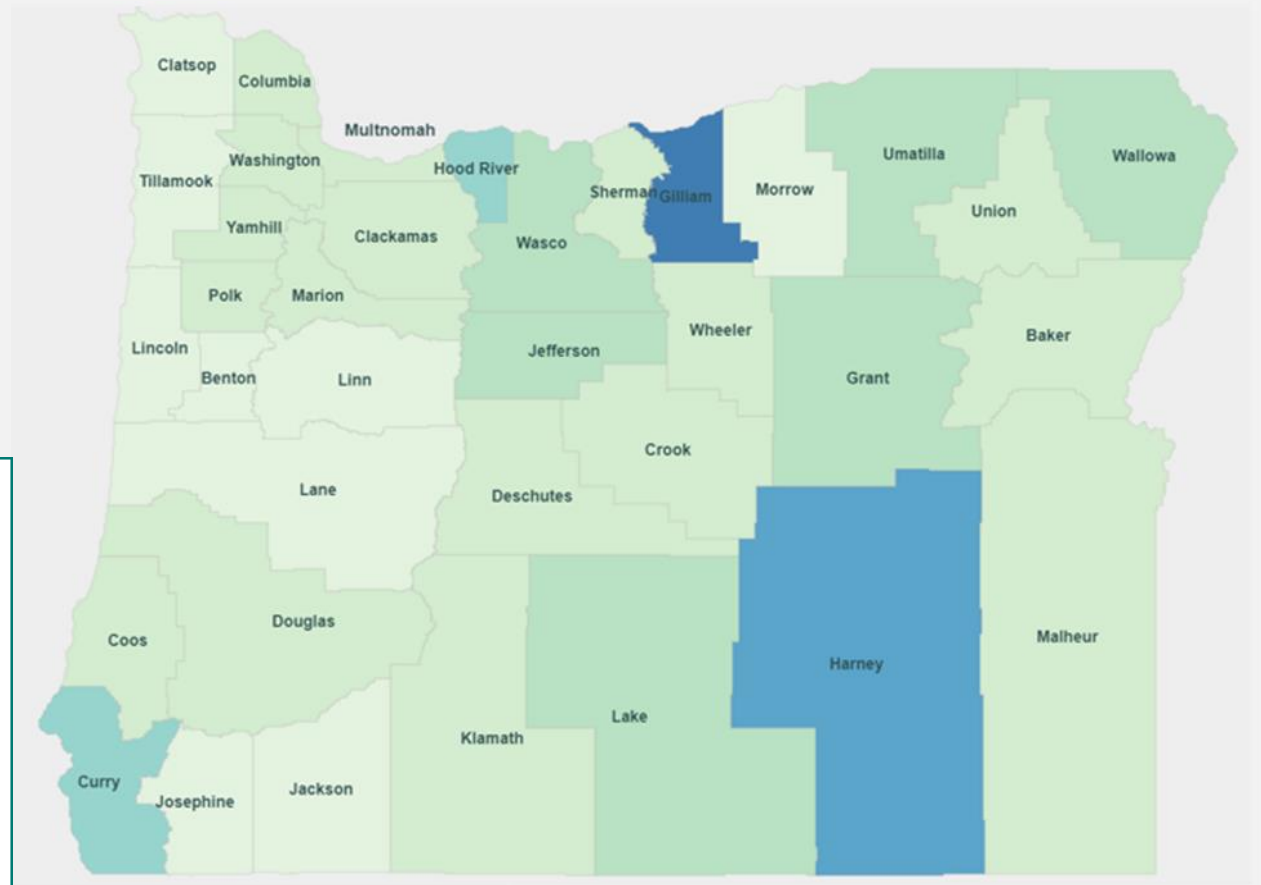

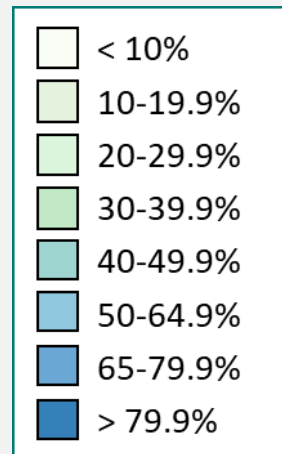

Data Source: OCC's Child Care Regulatory Information System (CCRIS)

Percentage of Children Under 5 with Access to a Publicly Funded Early Learning Slot

In the majority of Oregon's counties, less than 40% of eligible children under 5 years have access to a publicly funded slot.

Note: Data includes 2022-23 slot estimates for the following programs: Baby Promise, Preschool Promise, Oregon Prenatal to Kindergarten and federal Head Start/Early Head Start. Tribal Head Start, Migrant & Seasonal Head Start, and other publicly funded program data are not included. Source: Early Learning Division
Total population defined as children ages 0-4 living in families below 200% of the Federal Poverty Level; Source: 2020 ACS 5-Year Estimates, Table B17024

Supporting Oregon's Economy

60%

of children under age 6 have both parents in the workforce

33%

of businesses felt that child care issues factored "a great deal" into loss of productivity for employees

54%

of Oregon employers say that access to child care impacts their ability to hire and/or retain employees.
