**BACKGROUND:**

Planned communities, defined by Oregon statute 94.550, include any subdivision resulting in a pattern of ownership of real property and the buildings and improvements in which owners are collectively responsible for maintenance, operation, insurance, or other expenses relating to the property. Condominiums, exclusively commercial and industrial subdivisions, and timeshare plans are excluded from the definition. Governing documents for these communities include provisions relating to common ownership and maintenance of the community and are binding upon the community's lots.

Senate Bill 503 directs the Real Estate Agency to study homeowners associations and report back to the interim committees of the Legislative Assembly related to housing by September 15, 2024.
