BACKGROUND:

Current law defines talented and gifted (TAG) children as those requiring special educational programs or services beyond those normally provided by the regular school program in order to realize their contribution to self and society who demonstrate outstanding ability or potential in one of several academic, creative, or leadership areas. School districts are required to submit a plan of instruction for TAG children, and may apply for state funds to provide TAG instruction. Senate Bill 735 requires the Oregon Department of Education to study means of increasing access to advanced instruction.
