

HB 3596 -1 STAFF MEASURE SUMMARY

House Committee On Behavioral Health and Health Care

Prepared By: Brian Nieubuurt, LPRO Analyst

Meeting Dates: 3/27, 4/3

WHAT THE MEASURE DOES:

Allows person to practice surgical technology at health care facility if person has completed and is certified by specified apprenticeship program. Declares emergency, effective on passage

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

-1 Clarifies accreditation standards for surgical technology education programs.

BACKGROUND:

Surgical technologists work in hospitals and assist surgeons during surgery by passing them sterile supplies and instruments. They prepare operating rooms for surgery, including making sure supplies are sterile and ready for use, and maintaining a sterile environment in the operating room. House Bill 2876 (2015) established educational, certification, and continuing education requirements for surgical technicians in Oregon. House Bill 4106 (2022) established an apprenticeship path for the practice of surgical technology.

House 3596 would clarify the allowable practice of surgical technology at health care facilities by individuals who have completed and are certified by an apprenticeship program.
