- Clarification on need for new versus renovated structures
- Applicability of other funding sources to address need
- Past attempts to address structural deficiencies
- Priority list for repairs

EFFECT OF AMENDMENT:

-1 Makes Oregon Department of Administrative Services requester of bonds instead of State Fair Council.

BACKGROUND:

The Oregon Constitution authorizes the state to lend credit for real or personal property to be owned or operated by the state. Article XI-Q bonds are issued by the State Treasurer as separate and distinct from the General Fund. The bonds go to acquiring, constructing, remodeling, repairing, equipping, or furnishing real or personal property, including facilities and systems. Infrastructure may also be covered by these bonds, along with indebtedness, limited to no more than one percent of the real market value of the property in the state.

In 2022, the Oregon State Fair Council requested a total of \$20,171,000 with an itemized list of priorities to cover deferred maintenance, improvements, and safety enhancements. The Oregon State Fair and Exposition Center has been called upon to provide for emergency needs, including storage and sheltering following wildfires and responses to COVID-19. The Council notes an operating deficit and facilities insufficient to meet future emergency needs.

Senate Bill 894 allows the State Treasurer to issue Article XI-Q bonds to cover the amount requested by the Oregon State Fair Council to support the Oregon State Fair and Exposition Center's use as a regional emergency and evacuee center.
