No amendment.

BACKGROUND:

The legislative assembly authorizes the state treasure to issue different types of bonds to state agencies and other public bodies each biennium. The "conduit" or "pass-through" bonds are special revenue bonds authorized in the biennial bond bill to be issued by the state treasurer for the benefit of some public corporations, nonprofit bodies, and agencies. The time between the end of one biennium (June-30) and the beginning of new authorization has to wait for the governor's signature of the new bill. This period creates a time gap for the bonding process and funding. This measure tries to clarify the authorization during this time gap.

Although only three types are active, the State has authorized four conduit or "pass-through" revenue bond programs. Under these programs, the State is considered the issuer but has no obligation to fund debt service payments other than out of payments from the entities on whose behalf the bonds are issued.

1. **Oregon Facilities Authority (OFA)** – ORS Chapter 289. The Oregon Facilities Authority, formerly named the Health, Housing, Educational, and Cultural Facilities Authority, was created in 1989 and operates pursuant to Oregon Revised Statutes Chapter 289. OFA is a public corporation empowered to issue conduit revenue bonds and assist with the assembling and financing of lands for health care, housing, educational and cultural uses and for the construction and financing of facilities for such uses. Effective January 1, 2007, OFA's mandate was expanded to include the financing for all non-profit institutions, organizations or entities within the State that are exempt from taxation under section 501(c)(3) of the Internal Revenue Code, as defined in ORS 314.011. The Authority reviews proposed projects and makes recommendations to the State Treasurer whether to finance the project through the issuance of limited obligation bonds.
