

# Community College Annual Apprenticeship Report

February 2023

**John Wykoff**

Deputy Director, Oregon Community College Association

# Background

## SB 455 (2019):

- ▶ Amended existing statute and added apprenticeship reporting requirements for community college capital construction projects funded in part or in whole by Article XI-G bond proceeds for contracts with a cost of \$8M or more

## ORS 350.379:

- ▶ Requires community colleges to report annually on the amount of work performed by apprentices, women, and minority individuals under qualified contracts.
- ▶ Applies to community college capital projects with qualified contracts solicited, advertised or entered into on or after January 1, 2021.

# Background

- ▶ Community colleges are not subject to the additional reporting requirements that apply to public universities in SB 1572 (2020).
- ▶ This report covers one project at Lane Community College subject to the reporting requirements for qualified contracts entered into in 2022.
- ▶ No other community college projects funded by Article XI-G bond proceeds are subject to this reporting requirement because those construction contracts were initiated prior to January 1, 2021.

# Health Professions Building

The new \$32.8 million, 34,683 ft<sup>2</sup>, facility will support the expansion of high-demand Health Professions programs at LCC's main campus in Eugene

Apprentices	Women	Minority Individuals
2.5	8.5	32.5

*Total work hours represent totals from project start date in September 2022 through December 2022 (initial stages of work)*

- The new building will allow for the return of LCC's Dental Clinic to the main campus, closer to other academic classes and Health Profession programs.
- It will serve as home to Lane's Dental Hygienist, Dental Assistant, Medical Assistant and Emergency Medical Services programs.
