BACKGROUND:

Since 2005, Oregon law has allowed the use of a recreational vehicle (RV) as a dwelling if all of the following conditions are met: the RV is located in a manufactured home park, mobile home park, or RV park; the RV is occupied as a residential dwelling; and the RV has lawful water and electric hook-ups and a sewage disposal system. In response to the 2020 wildfires, the Legislative Assembly enacted House Bill 2809 (2021), which also permitted the siting of an RV as a dwelling on the lot of a manufactured or single-family home made uninhabitable by a natural disaster, until the home is made habitable or 24 months following the date it was made uninhabitable.

House Bill 2898 extends the time allowance for living in an on-site RV to five years. The measure also specifies that, under applications to alter, restore, or replace a dwelling destroyed by the 2020 wildfires, the applicant is permitted to occupy an RV until December 30, 2030.
