No amendment.

#### **BACKGROUND:**

States such as Washington, Colorado, and Michigan structure school board member compensation as compensation per day that the director or member attends board meetings or conducts board business ([RCW 28A.343.400](#), [Colorado HB 21-1055](#), [MCL 380.621](#)). California code limits board member compensation per month based on daily attendance in the district, and only permits members who attend all meetings to receive compensation ([California 35120 EDC](#)).

House Bill 2753 A permits district school boards to offer members a stipend of up to \$500 per month, and requires districts that do not provide a stipend to reimburse expenses incurred in the performance of duties.
