BACKGROUND:

Senate Bill 1565 (2022) expanded equity in payment for services and goods for requiring cash options and requires public accommodations offering goods or services to accept United States coins and currency from patrons unless the accommodation qualifies for an exception. Parking pay stations are currently allowed to not accept currency, so long as they accept coins.

Senate Bill 910 allows parking pay stations to accept non-cash payment for services, if they provide a pay station that accepts coins or currently as payment for parking is made available within 300 feet of the non-cash pay station.
