- Provisions of measure
- Enhancing Construction Contractors Board (CCB) ability to protect consumers
- Ability of CCB to condition license
- Tools available on CCB website for consumers

#### EFFECT OF AMENDMENT:

-1 Requires exempt licensed construction contractor to affirm exempt status when renewing license. Requires licensed construction contractor to notify the Construction Contractors Board (CCB) within 10 days of change in status from exempt to nonexempt contractor or nonexempt to exempt status.

#### BACKGROUND:

The Construction Contractors Board (CCB) consists of nine members, appointed by the Governor and confirmed by the Senate. CCB investigates and enforces construction contractor regulations and licensing requirements. Oregon law governs when the Board may take disciplinary action against a construction contractor licensee or applicant and when CCB may investigate complaints.

Senate Bill 228 expands CCB's rulemaking authority to accept jurisdiction over complaints in exceptional circumstances. The measure expands the circumstances under which the CCB may take disciplinary action against a construction contractor licensee or applicant for violation of Oregon's construction contractor regulations.
