### SUMMARY

Establishes Parkinson's disease registry.

### OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure prohibits the public disclosure of identifying information regarding patients, health care facilities and practitioners reported to the Oregon Health Authority for inclusion in the Parkinson's disease registry and any additional information reported in connection with a Parkinson's disease study using the registry.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could receive information regarding Parkinson's disease patients and the health care provided to them.
