Takes effect on 91st day following adjournment sine die.

OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure prohibits the public disclosure of the report that a health care provider would submit to the Oregon Health Authority regarding an abortion that was performed or attempted to be performed.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could learn additional information regarding abortions that were performed or attempted to be performed and personally identifiable information of persons upon whom an abortion was performed or attempted to be performed.
