Various Agencies – Lottery Allocations 2021-23

Oregon Health Authority – Oregon Marijuana Account Allocation 2021-23

Department of Education – Fund for Student Success Allocations 2021-23

**Carrier:** Rep. Sanchez

### **Summary of Revenue Changes**

SB 5545 decreases the amount of net lottery revenue allocated from the Administrative Services Economic Development Fund to reflect the adjusted level of debt service payments required in the 2021-23 biennium for various agencies. The measure decreases the amount of marijuana tax revenue transferred from the Oregon Marijuana Account to the Drug Treatment and Recovery Services Fund in the Oregon Health Authority. This adjustment corresponds to the level of revenue available in the 2021-23 biennium for the Drug Treatment and Recovery Services Fund based on the March 2023 state economic and revenue forecast published by the Department of Administrative Services (DAS) Office of Economic Analysis (OEA). The measure also allocates revenue from the Fund for Student Success to the Student Investment Account, Statewide Education Initiatives Account, and Early Learning Account. These allocations are based on the March 2023 OEA forecast and estimated beginning balances in the accounts.

### **Summary of Capital Construction Subcommittee Action**

#### **Lottery Revenue Allocation**

The Oregon State Lottery collects revenues from traditional, sports betting, and video lottery gaming. It pays player prizes and its operating expenses out of these revenues and then transfers the balance (net revenues or proceeds) on a quarterly basis to the Administrative Services Economic Development Fund (EDF) for allowable public purposes specified in the Oregon Constitution. From each quarterly transfer, the Department of Administrative Services distributes net lottery proceeds in accordance with specific dedications required under Oregon's Constitution and statute, and for debt service payments on bonds secured by net lottery revenues and other allowable priorities determined by the Legislature.

SB 5545 reduces the lottery allocation from the EDF by approximately \$2.5 million for debt service payments on outstanding lottery revenue bonds. This revision reflects decreases to Lottery Funds debt service in HB 5045 for multiple agencies and adjusts the total lottery debt service allocation established in 2021-23 to \$271.4 million. Additionally, the March 2023 state revenue forecast reflects an increase in lottery revenues available for the constitutionally dedicated distributions to the Education Stability Fund, Parks and Natural Resources Fund, and Veterans' Services Fund. SB 5545 does not include corresponding adjustments because lottery revenue transfers established by the Oregon Constitution do not require an allocation by the Legislature. The lottery cash flow table below summarizes the changes in forecasted lottery revenues dedicated for each constitutional distribution.

#### **Oregon Marijuana Account Revenue Allocation**

The Department of Revenue (DOR) deposits Marijuana tax revenue into the Oregon Marijuana Account (OMA) after accounting for its related operational expenses and refunds or credits arising from erroneous overpayments. DOR distributes revenue from the OMA on a quarterly basis for specific purposes defined in statute, including the Drug Treatment and Recovery Services Fund; State School Fund; mental health treatment and drug abuse prevention, early intervention and treatment; State Police; and cities and counties. Statutory limits on the amount of OMA revenue transfers remain in place through the 2021-23 biennium for all distributions except the Drug Treatment and Recovery Services Fund. SB

5545 reduces the revenue allocation to the Drug Treatment and Recovery Services Fund from approximately \$250.5 million to \$210 million. This adjustment is based on the change from the March 2022 state revenue forecast, which was the last time the Legislature revised this revenue allocation, to the March 2023 forecast.

#### **Fund for Student Success Revenue Allocation**

The Department of Revenue collects Corporate Activity Tax revenues, pays its collection expenses from these revenues, and transfers the balance to the Fund for Student Success established in ORS 327.001. Corporate Activity Tax revenues are projected to be \$2.45 billion in the 2021-23 biennium based on the March 2023 state revenue forecast. After making deposits into the High Cost Disability Account established in ORS 327.348 and State School Fund established in ORS 327.008<sup>1</sup>, and after retaining a reserve for cash flow and to mitigate revenue fluctuations, the Department of Education transfers the balance of revenues in the Fund for Student Success into three statutorily defined education accounts according to the following statutory distribution percentages:

- At least 50% to the Student Investment Account established in ORS 327.175
- Up to 30% to the Statewide Education Initiatives Account established in ORS 327.250
- At least 20% to the Early Learning Account established in ORS 327.269.

Consistent with the March 2023 revenue forecast and the estimated beginning balances in each account, SB 5545 makes the following allocations from the Fund for Student Success for expenditures already budgeted in the Department of Education's legislatively approved budget:

- \$891,938,410 to the Student Investment Account
- \$382,929,904 to the Statewide Education Initiatives Account
- \$397,567,727 to the Early Learning Account

#### **Summary Tables**

The tables below summarize Lottery Funds cash flows and allocations in the 2021-23 legislatively approved budget. The figures in these tables are not restricted solely to the impacts of SB 5545, but also include the impacts of changes in the lottery revenue forecast since the 2022 session. The subsequent tables summarize Oregon Marijuana Account and Fund for Student Success allocations in the 2021-23 legislatively approved budget. Similar to the Lottery Funds cash flow summary, the table for the Fund for Student Success also summarizes cash flow and the impacts of changes to forecasted revenue that are separate from the allocations made in SB 5545.

<sup>&</sup>lt;sup>1</sup> HB 3427 (2019) reduced personal income tax rates by 0.25% in the lowest three of the four personal income tax brackets. As personal income taxes are deposited in the General Fund for any lawful expense or obligation of the state, this provision of the measure had the effect of reducing resources available for state-funded programs, including K-12 education. The measure addressed the reduction of General Fund resources available to K-12 education by requiring a transfer from the Fund for Student Success into the State School Fund of the difference between personal income taxes generated at the former rate and personal income taxes generated at the reduced rate.
