OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure data protection assessments a controller conducts for each of the controller's processing activities that presents a heightened risk of harm to a consumer, and any records collected by the Attorney General in the Attorney General's investigation of entities regarding their processing of consumer personal data.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public might be able to receive data protection assessments and any records collected by the Attorney General in the Attorney General's investigation of entities regarding their processing of consumer personal data.
