BACKGROUND:

In general, state agencies are required to assign uncollected delinquent debt to the Department of Revenue (DOR) for collection through DOR's Other Agency Accounts division within ninety days if no payment has been received. Department of Revenue is generally required to offer such agency debts to assignment with a private collection agency if DOR has not collected a payment on the account within the previous six months. The Oregon Department of Administrative Services (DAS) is authorized to adopt rules providing exemptions from such agency debt account assignment requirements. While exceptions exist, debt originating in the Department of Revenue is generally required to be offered for assignment with a private collection agency no later than one year from the date of most recent payment on the account and such requirement is not subject to DAS adopted rule exclusions. Measure would include such debt originating in DOR to also be potentially subject to DAS adopted rule exclusions.
